Catapult - Pre-Onboarding			
Day	Tech.	Topic	Hours - Theory (ILT)
Day 1	Java	OOPs Fundamentals	2
Day 2		Core Java Basics	
Day 3		Static Keyword Packages & Access Modifiers	
Day 4		Arrays, Strings	
Day 5		Java Collections & Generics	
Day 6 - Day 10			10 Hours -
Day 11	Java	Exception Handling	2
Day 12		Enums & Annotations Java I/O	
Day 13		Java 8 Features	
Day 14		Threading Basics	
Day 15		Inner Classes	
Day 16 - Day 20			10 Hours -
Day 21		JVM Internals	2
Day 22		Memory Management	
Day 23 -24			4 Hours - Han
Day 25			
Day 26	SQL	RDBMS	2
Day 27		SQL Basics	
Day 28		SQL Joins	
Day 29		SQL Advanced	
Day 30		DB Design	
Day 31 - Day 35			10 Hours -
Day 36			
Day 37		An Overview of Python	
Day 38		Running Python Scripts	

Day 39	Python	Getting Started	2
Day 40		Flow Control	
Day 41 - Day 45			10 Hours - H
Day 46	Python	Flow Control	2
Day 47		Sequence Data	
Day 48		Defining Functions	
Day 49		Working with Files	
Day 50		Dictionaries and Sets	
Day 51 - 55			10 Hours - H

Day 56	Python	Errors and Exception Handling	2
Day 57		Using Modules	
Day 58		Regular Expressions	
Day 59		An Introduction to Python Classes	
Day 60		Complete oops concepts.	
Day 61 - 64			8 Hours - H
Day 65			4

g - Tech Coverage - Training Plan
Details
Classes, Objects, Encapsulation, Abstraction Inheritance, Polymorphism, Interfaces
Java and JVM architecture, Syntax, Data Types, Operators
Static variables methods and blocks public private protected default access levels
1D 2D and multi-dimensional arrays String StringBuilder StringBuffer
List, Set, Map, Streams Type safety and generic classes
- Hands On covering the First Week Topics
try/catch, Custom Exceptions
Enum types and usage, Built-in and custom annotations File handling, Serialization
Functional Interfaces, Lambdas, Streams (Stream pipelines filtering mapping reducing) Predicate Function Supplier Consumer
Thread class, Runnable, Thread Life Cycle, Synchronization, wait and notify
Member static local anonymous classes
Hands On covering the Third Week Topics
Classloader JIT compiler bytecode
Stack heap garbage collection
ds On covering the Fifth Week Topics
3 Hour Java Mini Project
Normal Forms & introduction to Oracle
SELECT, INSERT, UPDATE, DELETE
INNER, LEFT, RIGHT, FULL
Subqueries, Grouping
Normalization, Keys & Indexing
Hands On covering the Complete SQL Topics
3 Hour SQL Mini Project
What is Python? Interpreted languages. Advantages and disadvantages Downloading and installing Which version of Python Where to find documentation
Structure of a Python script Using the interpreter interactively Running standalone scripts under Unix and Windows

Using variables String types: normal, raw and Unicode String operators and expressions Math operators and expressions Writing to the screen Command line parameters Reading from the keyboard
About flow control Indenting is significant The if and elif statements while loops Using lists Using the for statement The range() function
Hands On covering the Previous week Topics
About flow control Indenting is significant The if and elif statements while loops Using lists Using the for statement The range() function
list operations list methods Strings are special kinds of lists tuples sets Dictionaries
Syntax of function definition Formal parameters Global versus local variables Passing parameters and returning values
Text file I/O overview EduRamp Learning Services Pvt. Ltd. Opening a text file Reading text files Raw (binary) data Using the pickle module Writing to a text file
Dictionary overview Creating dictionaries Dictionary functions Fetching keys or values Testing for existence of elements Deleting elements
Hands On covering the Previous week Topics

Dealing with syntax errors Exceptions Handling exceptions with try/except Cleaning up with finally
What is a module? The import statement Function aliases Packages
RE Objects Pattern matchin Parsing data Sub expressions Complex substitutions RE tips and tricks
About o-o programming Defining classes Constructors Instance methods Instance data Class methods and data Destructors
Encapsulation Polymorphism Inheritance Abstraction
ands On covering the Previous week Topics
Hours Python Mini Project
